

Wildlife (MiniCube) (CubeBook)

This charming addition to the MiniCube series showcases exotic species and familiar favorites, capturing fleeting moments in the lives of a vast range of wild animals from around the world. Readers witness untamed creatures caring for their young, hunting for food, basking in the sun, grooming, and other everyday activities which, depicted in these pictures, become very special indeed. From the big cats and noble elephants of the African savannahs to crocodiles and monkeys of tropical jungles to more familiar creatures such as bears and foxes that live in the northern forests, these photos bring to life the physical beauty and important role played by each of these animals in our ecosystem.
