

Calculus ()-based platform for teaching materials Tsinghua(Chinese Edition)

Paperback. Pub Date: 2004 02 Pages: 430
 Language: English Publisher: Tsinghua University Press
 The book is divided into three: the micro-integral (I), micro-integral (II) and calculus (III). The contents of the book is an extension of the calculus (I), mainly including the preliminary knowledge of the multi-function differential calculus and calculus, curve theory and field theory, and linear differential equations. Including space analytic geometry, multivariate letter sensitive differential method, the application of differential calculus, multivariate letter sensitive double integrals, initial curve integrals and surface integrals, vector fields, higher order linear differential equations of Chapter 7.
 Contents: Chapter 1 space analytic geometry 1.1 vector and its operation 1.1.1 Vector 1.1.2 vector plot exercises 11.2 Space Cartesian coordinate ...
