

On Private Madness (Maresfield Library)

Andre Green occupies a unique position in psychoanalysis today, and his work represents a synthesis of the traditions of Lacan, Winnicott and Bion. This volume collects fourteen of his papers together with a substantial introduction. The papers range widely across clinical and theoretical issues including borderline states, the true and false self, and narcissism. On Private Madness has achieved the status of a modern psychoanalytic classic, and this new impression will be welcomed by all those admirers of Dr Green who wish to have these seminal papers collected together.
