

University mathematics series planning materials: Linear Algebra (Economics and Management)(Chinese Edition)

Paperback. Pub Date: 2011 Pages: 199 in Publisher: Anhui University Press University mathematics series planning materials: linear algebra (Economics and Management) consists of six chapters. the first three chapters are determinant. matrix. linear equations. Chapter 3 runs through the main line of linear equations. in the discussion of linear equations. the introduction of the concept of dimensional vector. and introduced their arithmetic and linear relationship Chapter 4 describes the inner product of vectors in R^n similar to its concept as well as the matrix eigenvalue. eigenvector matrix the keratosis. these are the most important content of the matrix.. Chapter 5 describes the theory of quadratic forms. and focus on the real quadratic form with orthogonal linear replacement of secondary standard Chapter 6 discusses the basic content of the linear space. as a generalizat...
