Excerpt from Utility Theory Applied to Medical Diagnosis and Treatment: 393-69, May 1969I would like to express my appreciation to Professor G. Anthony Gorry for the guidance he has given me throughout this project. His interest and enthusiasm were a great encouragement. I also owe my gratitude to Dr. Jerome Kassirer and Dr. William Schwartz of the Pratt Diagnostic Clinic, New England Medical Center, for their generous contributions of time, information, and advice. Finally, my special thanks to my wife Arleen and daughter Karen. Their confidence and co-operation were invaluable.
