- James The Amazing Randi, SWIFT Blog

A small treasury of gems... Highly entertaining way to get your eyes out on sticks - Peter Brookesmith, Fortean Times (UK) For more than thirty years, Robert Sheaffer's Psychic Vibrations column has been entertaining readers of The Skeptical Inquirer, while keeping them informed of weird developments in the science of UFOs, psychic research, Cryptozoology, etc. Those columns are gathered together here, organized by subject, to inform and amuse the reader. With 150 humorous illustrations by cartoonist Rob Pudim

A scientific expedition searches for Mermaids in the South Pacific. A Saucer Crashes in Central Park! A mad UFOlogist tries to poison local officials by spreading radioactive materials around them because he thinks they're covering up a UFO crash!

Sure, you can read about Alien Crop Circles in plenty of books. But where else can you read about: Alien Carpet Circles, made by the indoor landing of tiny UFOs?

A secret government project hiding shocking photos - of Noah's Ark?

Creationist attacks not only on evolution, but on heliocentrism, too? Who teaches students to distinguish between Creation Rocks and Flood Rocks? Which has stronger psychic powers: Uri Geller, or a dead hamster? It's all here, folks. Nowhere else. And it's all true (meaning that the author didn't make it up). And remember: Millions of cuddly household pets are really space aliens. Enter the Discount Code SPK8R6GT to get 25% off the list price.
