

Natalie is a young woman who is searching ... but she doesn't know it. Throughout her search she gets a job, goes to college, smokes, drinks, parties all night with her friends, and goes from one unhealthy relationship to the next. The problem is that no matter what she does, nothing seems to fill the void inside of her screaming out for attention, which eventually leaves her with the inevitable and unavoidable question "Why am I still unfulfilled?" As Natalie reflects on the ups, downs, madness and mayhem of her life, she takes you on a soul baring journey. But when she finds herself in some problematic and unexpected situations, does it result in her finally getting the long awaited answer to her question?
