

The Mirror Effect

Reality TV. Celebutantes. YouTube. Sex Tapes. Gossip Blogs. Drunk Driving. Tabloids. Drug Overdoses. Is this entertainment? Why do we keep watching? What does it mean for our kids? In the last decade, the face of entertainment has changed radically - and dangerously, as addiction specialist Dr. Drew Pinsky and business and entertainment expert Dr. S. Mark Young argue in this eye-opening new book. The host of VH1's *Celebrity Rehab* with Dr. Drew and of the long-running radio show *Loveline*, Pinsky recently teamed with Young to conduct the first-ever study of narcissism among celebrities. In the process, they discovered that a high proportion of stars suffer from traits associated with clinical narcissism - including vanity, exhibitionism, entitlement, exploitativeness, self-sufficiency, authority, and superiority. Now, in *The Mirror Effect*, they explore how these stars, and the media, are modeling such behavior for public consumption - and how the rest of us, especially young people, are mirroring these dangerous traits in our own behavior. And it explores how YouTube, online social networks, and personal blogs offer the temptations and dangers of instant celebrity to the most vulnerable among us. Informed and provocative, with the warm and empathetic perspective that has won Dr. Drew Pinsky legions of fans, *The Mirror Effect* raises important questions about our changing culture - and provides insights for parents, young people, and anyone who wonders what celebrity culture is doing to America.
