

The Organic Matter of the Soil: A Study of the Nitrogen Distribution in Different Soil Types (Classic Reprint)

Excerpt from The Organic Matter of the Soil: A Study of the Nitrogen Distribution in Different Soil Types
The Organic Matter of the Soil: A Study of the Nitrogen Distribution in Different Soil Types was written by Clarence Austin Morrow in 1918. This is a 83 page book, containing 31580 words and 5 pictures. Search Inside is enabled for this title. About the Publisher
Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com
This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
