

Problems of Faith

The material here was originally intended as a third section in Smith's previous offering, *The Problem of God*, but took on a life of its own to become a separate work. *The Problem of Faith* is thus a sequel to the former work and deals with those questions with which all thinking believers wrestle: the nature of religious language, evil and the God of love, the concept of miracles and of prayer, the relationship between faith and reason, life after death, and the problem of hell. The aim is to encourage the reader to engage afresh with these essential issues.
