

Wise Thoughts For Understanding and Joy: The Serenity in Practical Biblical Self-Counselling and Direction

In our time, humans seem to have lost direction as to the purpose of life and its living. We seem to be believing in ourselves and holding firmly to the knowledge that we can make it by all means, especially with the believe that we have to think positive and push ourselves to make things happen. This is an awful deceit that is seriously affecting our desire for peace. We have to come to the knowledge that we are creatures and that we have a creator. And that we are governed by rules and regulations as directed by our maker. To know and understand who we are, we have to dig down into scripture. It is there we do find answers to our messes and how to come out of them; and the source is our lack of heavenly knowledge, wisdom and understanding. At the same place, we also find out about the way we should go about our daily lives and gain the control in handling situations right in seconds of the time. This book is a handy direction from the heart of scripture, bringing our minds to the importance of knowing and understanding who we really are, our purpose and where we are heading towards. Then we will begin to look up unto Him for all our needs. It directs us to thoughts that bring renewal in the spirit of our minds, enabling us to go placidly amid the noise, haste and confusion in this world.
